ABOUT US

Tax, legal, accounting and HR advice in Tashkent

Advizen Consulting helps local companies and foreign investors set up, run and grow their business in Uzbekistan and Central Asia.

We are an advisory firm based in Tashkent. Our advisers bring Big Four-level expertise to every engagement and work as one team across tax, law, accounting, HR and immigration, so a client deals with one coordinating partner instead of several firms.

We advise foreign companies entering the market, international groups with local subsidiaries, and Uzbek businesses that need advice to international standards.

Our work ranges from a single company registration to tax structuring of large investment projects and support with due diligence and M&A transactions.

WHY ADVIZEN

Six reasons clients work with us

Doing business in Uzbekistan means many authorities, frequent changes in the rules and documents mostly in Uzbek and Russian. We take that load off your team.

01 **One window for every service**

Tax, legal, accounting, payroll, HR and immigration under one agreement and one coordinating partner. Advice in one area is always checked against the others.

02 **Local practice, first-hand**

We know how the rules work in practice at the tax office, the registration authorities and the banks, not only how they read on paper.

03 **International standards**

IFRS reporting, transfer pricing files and due diligence reports prepared to the standard that foreign headquarters, auditors and lenders expect.

04 **Speed**

A clear plan and timeline from the first call. We know which documents each authority needs, so filings go in complete and on time.

05 **Transparent fixed fees**

Most engagements are quoted as a fixed fee or a monthly retainer agreed in advance. You know the cost before the work starts.

06 **Four working languages**

Advice, reports and correspondence in English, Russian, Uzbek or German. We translate the local context for your headquarters.

A local company that is set up correctly and runs smoothly from day one.

1. **Structure review** — Legal form, ownership and tax position, including treaty access
2. **Registration** — Incorporation, charter and appointment of the director
3. **Bank** — Opening of accounts and setup of payments
4. **Accounting and payroll** — Bookkeeping, payroll and first filings
5. **Ongoing tax** — Tax reporting and compliance monitoring

C An M&A transaction

Know the risks before signing and close the deal on time.

2. **Structuring** — Deal structure and the tax effect for both sides
3. **Documents** — Support in negotiations and transaction documents
