Edition of November 2026

INSIDE THIS GUIDE

Accounting in Uzbekistan in eight steps

Click a tile to open its page.

04 From NSBU to NSFO

05 Which standards apply

06 Chart of accounts and policy

08 The annual set

09 Inside the forms

10 Closing the year

12 Statutory audit

13 People and documents

UZS
The only currency of the books

1 March
Annual statements due

2027
First year under NSFO

2 of 3
Size tests that trigger an audit

01

Standards and rules

Every company keeps its books in soums on one national chart of accounts. From 2027 new national standards take over step by step.

04 From NSBU to NSFO →

05 Which standards apply →

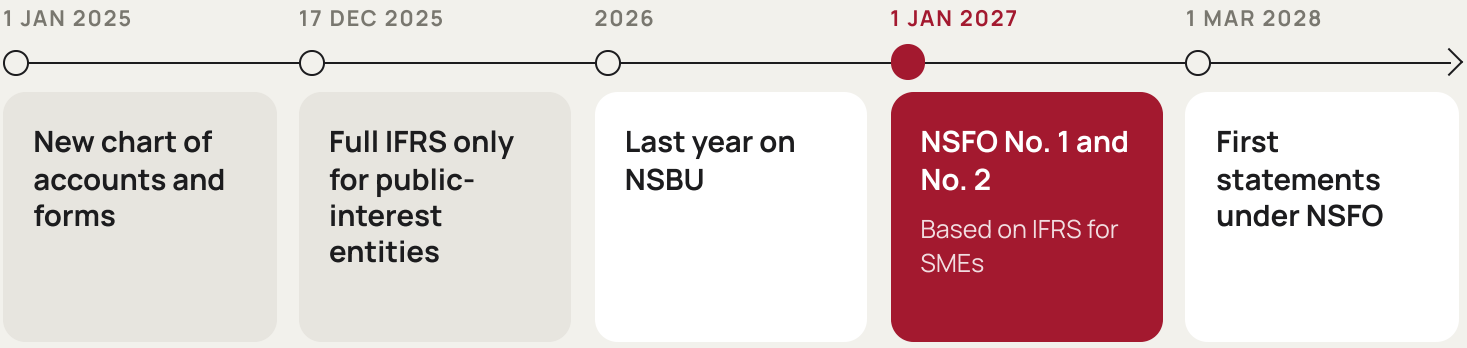

06 Chart of accounts and policy →

THE RULES

From NSBU to NSFO in one timeline

Accounting follows Law ZRU-404 on Accounting. A company with foreign capital follows the same rules as a local one.

What stays in 2027

- The other NSBU, until new standards replace them
- The national chart of accounts, books in soums and the deadlines

What to watch

- Further NSFO are in preparation
- A new accounting law exists only as a draft

COMMON MISTAKE

Expecting a whole new rulebook

Only NSFO No. 1 and No. 2 are adopted, so fixed assets, inventories and revenue stay on NSBU for now.

WHICH STANDARDS APPLY TO YOU

Find your row

IFRS · NSFO, new national standards · NSBU, current national standards · Open point, we check case by case

WHO YOU ARE	2026	2027	2028 ONWARDS
Public-interest entity	NSBU	IFRS	Audited IFRS
LLC or other company	NSBU	NSFO 1 and 2	NSFO
Joint-stock company	NSBU	NSFO 1 and 2	IFRS too?
Micro firm or small enterprise	NSBU	NSFO 1 and 2	Rules not yet set
Voluntary IFRS	IFRS from the chosen date		
Branch or TIFC participant	We check case by case		

449

Entities on the public-interest register in October 2026.

PART OF A GROUP?

One set instead of two

If the group reports under IFRS, a voluntary move ends the second set.

BOOKS AND POLICY

One chart of accounts, one policy order

One mandatory chart for all companies since 2025, in ten classes.

0 Long-term assets	1 Inventories	2 Production costs	3 Deferred expenses	4 Receivables
5 Cash and short-term investments	6 Current liabilities	7 Long-term liabilities	8 Equity	9 Income and expenses

The accounting policy

REGISTRATION
Policy applies from day one

WITHIN 90 DAYS
Director signs the order

FROM 1 JANUARY
Changes take effect

BY 31 DEC 2026
Sign the 2027 policy

COMMON MISTAKE

Books only on the group chart

An ERP on the group chart needs a mapping to the national chart.

Accounting policy for tax purposes

The tax policy is a separate document.

advizenco.com/insights

02

Financial statements

One annual set in soums. National statements are due by 1 March, IFRS statements by 1 May.

08 The annual set →

09 Inside the forms →

10 Closing the year →

FINANCIAL STATEMENTS

Five reports, or two

Micro firms and small enterprises file a shorter set.

Report	Full set	Short set
Balance sheet Form No. 1	✓	✓
Statement of financial results Form No. 2	✓	✓
Cash flow statement	✓	–
Statement of changes in equity	✓	–
Notes	✓	–

1 March
National standards

1 May
IFRS

Annual
No quarterly statements

COMMON MISTAKE

Relying on an old exemption

Fixed-rate turnover tax payers were exempt only for 2023–2025 and file again for 2026.

INSIDE THE FORMS

How Form No. 1 and No. 2 are built

ASSETS

I. Long-term assets

Fixed and intangible assets, investments

II. Current assets

Inventories, receivables and cash

=

OWN FUNDS AND LIABILITIES

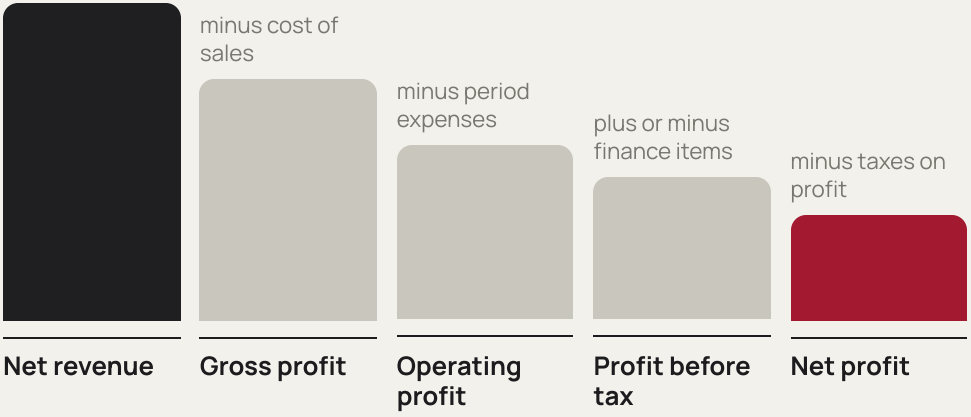

I. Own funds

Capital, reserves, retained earnings

II. Long-term liabilities

II. Current liabilities

Statement of financial results, simplified

COMMON MISTAKE

An English set only

The official forms are in Uzbek and in soums, an English version serves only the group.

CLOSING THE YEAR

The reporting year at a glance

JAN
- ○ 1 New policy applies

FEB

MAR
- ● 1 National statements
- ● 1 Notice of a move to IFRS

APR

MAY
- ● 1 IFRS statements

JUN
- ● 15 Audit report to the tax authority

JUL
- ○ 1 Public-interest register

AUG

SEP

OCT

NOV

DEC
- ○ 31 Policy order
- ○ Stocktake

● Deadline set by law ○ Internal step

Every month

- ✓ Revalue currency balances
- ✓ Reconcile e-invoices
- ✓ Count the cash
- ✓ Check signatures on documents

Every year

- ✓ Count inventories and fixed assets
- ✓ Test the audit thresholds
- ✓ Reconcile the group package
- ✓ Keep documents for five years

COMMON MISTAKE

Surprising the group with FX

Currency balances are revalued every month, and that moves the result.

Tax returns follow their own calendar. See our Tax Guide 2026.

03

Audit, people and documents

Larger companies and some legal forms need an annual audit. The books can be outsourced, the responsibility cannot.

12 Statutory audit →

13 People and documents →

14 Contacts →

STATUTORY AUDIT

Is an audit required?

Two questions decide it (Law ZRU-677, Art. 35).

Joint-stock company, bank, insurer, fund, exchange, agricultural cooperative or a state share?

YES → **Annual audit**
Whatever the size

NO ↓

At least two of three in the reporting year?

Assets	Revenue	Staff
over 100,000 BCV	over 200,000 BCV	over 100

YES → **Annual audit**
Report to the tax authority by 15 June

NO ↓

No statutory audit
Foreign ownership alone does not trigger one

ISA
International Standards on Auditing

Register
Audit firm in the state register

7 years
At most with one client in a row

COMMON MISTAKE

Paying the fine instead

A fine does not release the company from the audit, it still has to take place.

PEOPLE AND DOCUMENTS

Who keeps the books, and on what

The director picks one of four models the law allows. Every sale gets an e-invoice.

Four ways to organise

- Own team led by a chief accountant
- Accountant under a contract
- Outsourcing to a specialised firm
- The director keeps the books

The work moves, the responsibility does not. The company and its director answer to the state.

From document to archive

Primary documents
On paper or electronic

E-invoice for every sale
Issued through an operator

Risk rating
High risk delays the VAT credit

Cashless above 400 BCV
Online till in retail

Archive
At least five years

COMMON MISTAKE

One firm for books and audit

The auditor may not check a period it kept the books for.
