Edition of November 2026

WHY UZBEKISTAN

A growing base for IT teams

Uzbekistan combines a large young workforce, a time zone between Europe and Asia and one of the most generous tax regimes for IT companies in the region.

Software development, outsourcing and IT services are among the fastest growing exports of the country. Many foreign companies use Tashkent as a delivery centre for clients in Europe, the Middle East and the CIS.

The IT Park is the main instrument. Its residents are exempt from most taxes, their employees pay a reduced personal income tax, and they can hire foreign specialists without work permits.

Entry is simple for many nationalities. Citizens of the CIS, the EU, the UK, the US, China and many other countries enter visa-free, and IT specialists can obtain a multiple-entry IT visa for up to three years.

This guide explains the ways to start, how the IT Park works, what relocating a team involves, and the order in which the steps usually run.

GMT+5
One time zone, no daylight saving

39.0m
Population, 2026 census

$921.5m
Exports of telecom, computer and information services, 2025

7.5%
Personal income tax on salaries at IT Park residents

WAYS TO START

Three ways to start working in Uzbekistan

Most IT companies move from the first to the third over a few months. The right starting point depends on how quickly the team must start and how large it will be.

	Employer of Record No local entity	Own LLC Standard tax regime	LLC and IT Park Special IT regime
How it works	A local employer of record hires your staff, runs payroll and handles HR. You direct the work.	Your own Uzbek company employs the team, signs contracts and holds assets.	Your Uzbek company becomes an IT Park resident and uses its tax and hiring regime.
How fast	The team can start within days	Registration takes 2 to 3 days once the documents are ready	Registration of the LLC, then up to 15 working days for the IT Park review
Taxes	Standard payroll taxes	Standard regime: 15% profit tax, 12% VAT, 12% personal income tax, 12% social tax	Exempt from most taxes and social tax until 2028, 7.5% personal income tax on salaries
Foreign staff	Work permit needed	Work permit needed	No work permit needed for foreign specialists. IT visa available
Suits	Testing the market, small teams, the first months	Businesses outside the IT Park list or without export income	IT companies with a growing team and export income

A COMMON PATH

The team starts under Employer of Record contracts while the LLC is registered and the IT Park application is reviewed. Once the company becomes a resident, employees move to it and the IT Park regime applies.

Becoming a resident

The IT Park (Technological Park of Software Products and Information Technologies) admits Uzbek legal entities that carry on IT activities from its official list.

Who can apply

- Uzbek legal entities only. A foreign company first registers a local LLC
- Software development and IT services
- IT outsourcing and business process outsourcing
- Data processing and other activities on the official list in Resolution PP-589

Who cannot

- Since 1 April 2026, payment organisations and payment system operators
- Marketplaces
- Microfinance organisations

These activities lost access to the benefits under Presidential Resolution PP-388 of 26 December 2025.

From registration to resident status

1
Register an LLC
State registration of the Uzbek company
2 to 3 days

2
Prepare the file
Application, charter and business plan

3
File the application
Through the personal cabinet at my.it-park.uz with the company's digital signature

4
Review
The IT Park directorate reviews the application
Up to 15 working days

5
Resident status
Agreement with the IT Park and entry in the register of residents

Benefits apply from the first day of the month after the company is entered in the register of residents.

Keeping the status

Resolution PP-388 tightened the regime from 1 April 2026. Residents now have to earn part of their income from exports and pay a monthly contribution to the park.

20%

Minimum export share of total income from 1 April 2026

35%

Minimum export share of total income from 1 January 2027

1%

Monthly contribution to the park, as a share of revenue, for residents that meet the export share

If the export share is not met

The contribution rises to 2% of revenue for residents with revenue of UZS 5 to 100 billion and to 3% above UZS 100 billion.

From 2028 to 2040

The Tax Code continues the exemption from all taxes except VAT from 1 January 2028 to 1 January 2040, but only for residents whose exports exceed 50% of total income (Art. 483).

WHAT THIS MEANS IN PRACTICE

- Plan the share of export contracts before applying, not after
- Keep contracts, invoices and payment records that prove export income
- Track the export share every month and the 50% threshold for 2028
- Report to the IT Park on time to keep the status

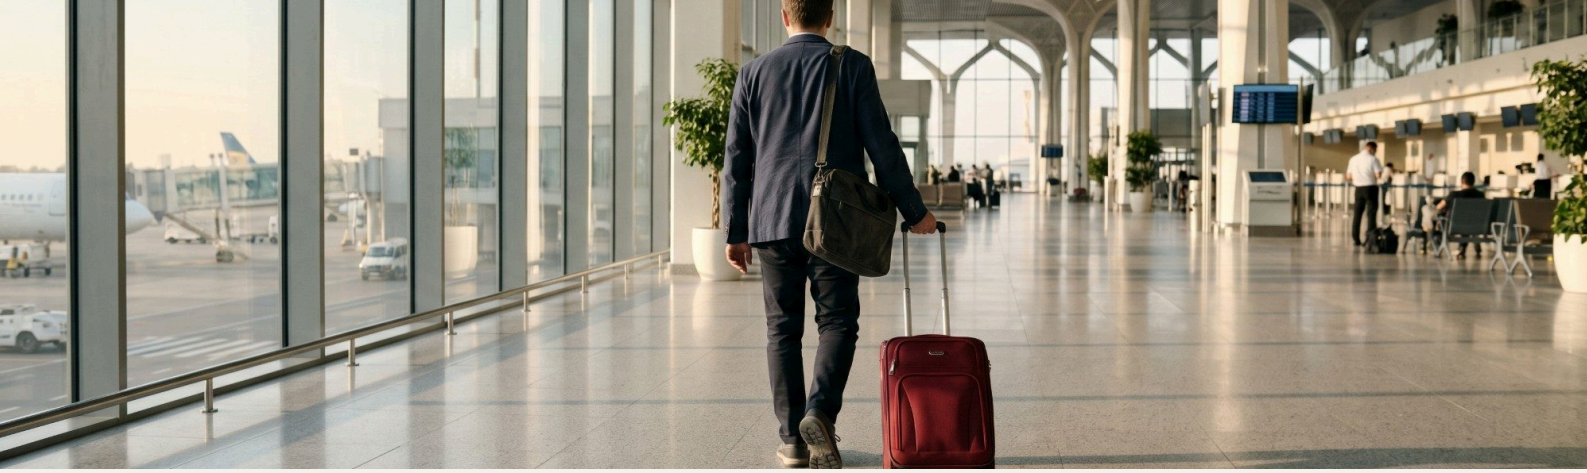

Standard regime and IT Park

	Standard regime	IT Park resident
Profit tax	15% (Tax Code, Art. 337)	Exempt
VAT	12%, 0% on exports (Art. 258)	Exempt until 1 January 2028, payable from 2028
Property, land and water taxes	Property tax 1.5% (Art. 415)	Exempt
Social tax	12%, paid by the employer (Art. 405)	Exempt
Personal income tax on salaries	12% (Art. 381)	7.5% flat (PP-589)
Dividends to non-resident founders	10% withholding tax (Art. 353), a treaty may reduce it	Taxed at resident rates until 1 January 2040 when exports exceed 50% of income (Art. 483)
Customs on equipment	Standard duties	No customs payments other than clearance fees on equipment and software for own needs not produced in Uzbekistan

WORTH KNOWING

- Employees' income from a resident is taxed at 7.5% and is not added to their annual income for tax purposes
- The 2028 to 2040 exemption does not cover VAT and requires exports above 50% of income
- Founders that do not qualify for resident rates on dividends should check the tax treaty with their country

Rates as of November 2026 under the Tax Code of the Republic of Uzbekistan and Resolutions PP-589 and PP-388. Benefits apply only when their conditions are met.

RELOCATION

Moving people to Uzbekistan

Entry and IT visa

- **Visa-free entry** for citizens of the CIS, the EU, the UK, the US, China and many other countries, mostly for 30 days
- **E-visa** online at e-visa.gov.uz for many other nationalities
- **IT visa:** multiple entry for up to three years, on the recommendation of the IT Park, for IT specialists, investors, founders and managers of residents
- The IT visa can be renewed without leaving the country

Work and registration

- **No work permit** for foreign specialists employed by IT Park residents
- **PINFL,** the personal identification number, for each foreign employee at a Public Services Centre
- **Registration of stay** within three working days of entry
- Employers outside the IT Park need a work permit for each foreign employee. Qualified specialists get permits for up to three years

FAMILIES

Plan visas and registration for spouses and children together with the employee. Keep apostilled marriage and birth certificates with notarised translations ready before the move.

Employing the team

Labour Code essentials

- Written contract, on paper or electronic, registered in the Unified National Labour System
- Probation of up to three months
- 40-hour working week and at least 21 calendar days of annual leave
- Remote work is allowed and must be set out in the contract
- An employee resigns with 14 calendar days' notice
- Dismissal by the employer only on grounds listed in the Code, with notice and severance

Payroll

- Salaries are paid in soums and payroll taxes are withheld every month
- IT Park residents withhold 7.5% personal income tax and pay no social tax
- Other employers withhold 12% and pay 12% social tax on top of salary
- Intellectual property created by employees should be assigned to the company in the contract

Banking and money flows

- Uzbek companies hold accounts in soums and in foreign currency with Uzbek banks
- Payments between residents inside Uzbekistan are made in soums, cross-border payments in any currency
- An Uzbek company may hold accounts with foreign banks only where a law or decision allows it
- The bank account can be ordered together with state registration of the company
- The company must be present at its legal address. A private residence cannot be used

ROADMAP

A typical relocation plan

The order in which the work usually runs. Several steps go in parallel, and the longest one is often the apostille of the parent company's documents.

Start	**Introductory call and plan** Choice of structure, list of documents and timeline for the team
First week	**Team starts under Employer of Record** Optional. Employees start work while the company is set up
2 to 3 days	**Registration of the LLC** Once the founder's documents are apostilled and translated. Bank account and digital signature at the same time
Up to 15 working days	**IT Park application and review** Filing through my.it-park.uz, agreement and entry in the register
In parallel	**Visas, PINFL and registration** IT visas, personal identification numbers and registration of stay for employees and families
After status	**Team moves to the company** Employment contracts with the resident, payroll at 7.5% and accounting
Every month	**Ongoing compliance** Tax and IT Park reporting, export share tracking and payroll

CHECKLIST

Documents to prepare

Company registration

- [ ] Parent company charter and register extract, apostilled
- [ ] Decision to establish the Uzbek company
- [ ] Notarised translations of foreign documents
- [ ] Charter of the Uzbek LLC in Uzbek
- [ ] Passport of the director and a PINFL
- [ ] Legal address: lease or letter from the owner

IT Park application

- [ ] Application for resident status
- [ ] Charter of the Uzbek company
- [ ] Business plan with planned IT activities
- [ ] Planned export contracts and clients
- [ ] Digital signature of the company

Each foreign employee

- [ ] Passport valid for at least six months
- [ ] Employment contract or offer
- [ ] Diploma and CV where requested
- [ ] Address in Uzbekistan for registration of stay

Family members

- [ ] Passports valid for at least six months
- [ ] Apostilled marriage and birth certificates
- [ ] Notarised translations
- [ ] Address for registration of stay

Requirements can differ by nationality and are updated often. We confirm the exact list for each case.

HOW WE HELP

One team for the whole move

We handle the legal, tax, HR and immigration side so that your team can keep working while the structure is built.

01 **Employer of Record**

Your team starts in days under our contracts, with payroll and HR handled locally.

02 **Company registration**

LLC registration, bank account, digital signature and legal address.

03 **IT Park application**

Eligibility review, business plan, filing and follow-up with the directorate.

04 **Visas and registration**

IT visas, PINFL and registration of stay for employees and their families.

05 **Accounting and reporting**

Bookkeeping, tax and IT Park reporting, and monthly tracking of the export share.

06 **Legal and tax advice**

Client contracts, IP assignment, dividends, tax treaties and permanent establishment risk.

CONTACTS

Planning to move your IT team to Uzbekistan?

Tell us about the team and the timeline. We answer in English, Russian, Uzbek or German. The first call is free.
